**1. PUBLIC COMMENTS/CEREMONIES/PRESENTATION**

No one in attendance

**2. BOARD OF TRUSTEES PROPOSED COMPENSATION**

Mr. Roemmich stated that the purpose of the Public Hearing, pursuant to Utah Code 17b-1-307, is intended for the Board of Trustees' proposed compensation. Mr. Roemmich turned the time over to Mr. Syme.

Mr. Syme stated that District has not updated the Board of Trustees' compensation for many years. He stated that even in a small district, board service includes year-round governance responsibilities, not just time spent in the monthly meetings. Mr. Syme noted that typical duties include packet review, agenda review, routine email/phone coordination, and attendance at monthly meetings or public hearings. Members may also review budgets, rates, capital projects, policies, contracts, audits, claims, and procurement matters as needed. Periodic office attendance may be requested for check signing, document execution, staff discussions, or other time-sensitive district business. Board service remains intermittent, but it carries ongoing legal, fiduciary, and oversight responsibility throughout the year.

Mr. Bell stated that he would like the Board of Trustees to document time spent attending meetings and reviewing monthly meeting packets.

Mr. Sperry explained that Board member compensation reflects both the time spent attending meetings and reviewing materials. He emphasized that serving on the Board is largely a matter of legal responsibility and maintaining the Trustee's and the District's reputation. Mr. Sperry also pointed out that being a Board member is not solely about financial rewards; it is equally about contributing to his community through involvement with the District.

**ADJOURN**

The Public Hearing was adjourned at 5:21PM
